

# Ever wanted to fly a Fighter Jet?

**...Drive a Formula 1 car?...Explore the Titanic in a mini-sub?...  
Swim in a treetop?...Fire a machine gun, a mortar cannon and drive a tank?...  
Float weightless at 35,000ft?...Play golf at Pebble Beach?...Hunt for alligators?...Fish for piranhas?...  
Sip Martini cocktails in the Kremlin?...Abseil off table mountain?...Enjoy a silver service reception on Ayres Rock?**

## **MIG 25 Fighter Experience**

Drake & Cavendish offers you the opportunity to do any one and more of these unique experiences. You could literally fly one of a series of Russian fighter jets, from the L-39 to the MiG 25 Foxbat. The Foxbat a high-altitude supersonic interceptor, flies so high that from its cockpit you can actually see the curvature of the Earth, you are virtually in space and travelling almost three times faster than sound. It's a fantastic and unbelievable experience that has been thrilling adrenaline seekers for 10 years; Drake & Cavendish can make it happen for you.

## **Formula 1**

Maybe you have always dreamed of driving a Formula 1 Car. Drake and Cavendish will take you to Monaco, provide training from ex-Formula 1 drivers and dress you in protective clothing, but only you can feel the power as you control 650bhp at the wheel of a genuine Formula 1 car on a specially designed track. Breathtaking!

## **Explore the Titanic**

Or then of course you could visit the Titanic. It's only 10 hours down in a MIR Submersible and Drake & Cavendish know where to get one. On this adventure, you'll spend 4-5 hours exploring this most famous of shipwrecks. But be quick, there's only one trip scheduled this year!

## **Treetop Swimming Pool**

Something gentler? More sophisticated? Let us take you to Brazil, where you will stay in the world's only 5-Star treetop hotel. Bathe in a treetop swimming pool, enjoy a cocktail reception on Sugar Loaf Mountain, fish for piranhas in the mighty waters of the Amazon and marvel at the massive Iguassu Falls as you view them from a helicopter.

## **Weightless at 35,000ft**

We will organise a space training session where you will float weightless at 35,000ft inside a space laboratory aircraft. Back on Earth, you can take a spin on the Centrifuge, to feel your face contort under the stresses of 5Gs. Wow!

## **Privilege & Luxury**

Drake & Cavendish offers a service for people who demand privilege, luxury and exclusivity, for those who wish to experience the extreme and to do it in style and comfort. Our knowledge and expertise is borne out of many years experience in operating conferences and incentive travel trips for major corporations, now we want to do it for you.

**We can take you on one of our set tours, or we can create an experience especially for you.**
